

clinergyTM
clinically driven healthcare solutions

ClinergyGPO.com

Clinergy, a new group purchasing organization (GPO), is revolutionizing the supply chain system for implantable devices to increase affordability and access in ways that benefit patients, providers, and suppliers.

Partnering with Clinergy

Purchasing high-acuity implantable medical devices is now effortless and quicker. At Clinergy, we leverage and negotiate contracts with manufacturers, distributors, and other suppliers to bring members a variety of new products and offer the latest innovative technology available in the market. We help contain costs, maintain value, and ensure quality.

We Help Members Contain Costs and Run Their Supply Chain

Through Clinergy, clinician-led panels evaluate and select the products available in our catalog for use in health systems, surgicenters, and medical facilities.

Our GPO leverages collective purchasing strength to lower purchase costs for physician preference items, resulting in cost savings for all members and organizations. Purchasing through a GPO also expedites the supply chain process, shortening the time to review and introduce new technology and devices to members.

Clinically Driven Healthcare Solutions

We bring synergy between the supply chain and clinical teams, offering clinically driven healthcare solutions. We put clinicians at the center of Clinergy's processes through product selection panels to build our comprehensive catalog.

Our commitment to providing excellent care affordably, by creating innovative and effective systems, is the impetus of Clinergy. We are building bridges among the region's healthcare organizations and providers – and ultimately benefiting patients in the communities we serve.

Access Our Comprehensive Catalog

Our catalog of products is continually reviewed and updated. We bring physician-vetted devices for general surgery and a variety of specialties, including orthopedics, cardiology, interventional cardiology, urology, interventional radiology, gastroenterology, and neurosurgery.

To view our current catalog, visit us online at ClinergyGPO.com or contact us at ContactClinergy@ClinergyGPO.com.

Become a Clinergy Supplier

Learn more about our current catalog and how to participate in the Clinergy competitive contracting process. Find information on when to submit a bid by visiting us online at ClinergyGPO.com or contact us at ContactClinergy@ClinergyGPO.com.

Become a Clinergy Member

To partner with Clinergy or to learn more, contact Jennifer Garvin, President of Clinergy, at jennifer.m.garvin@clinergygpo.com.

About Clinergy

Clinergy, created in 2020, is a novel group purchasing organization in the Mid-Atlantic region built on a collaboration between ChristianaCare and Bayhealth. Together, they developed a clinician-led procurement model to simplify high-end implantable medical product selection and purchase.
